

MLA Dental Section Booklist for a Library Supporting a Dental Program or Dental Service

Following are book titles recommended by dental librarians for a core resource dental collection. This core collection is to support the information and research needs of the oral health care provider (student and practitioner). This collection can be a part of a larger health sciences library or a part of a separate dental library, or, housed in a hospital or departmental library.

The selection criteria are:

- Current English-language title still in-print and available
- Established, authoritative author(s) and publisher
- Meets the information and/or research needs on the subject for the oral health care provider (student and practitioner)
- May have been used as a recommended or required textbook for the subject in a teaching environment in the US and/or Canada (recommended criterion but not required)
- Title is available electronically on CD/DVD or on the Internet/WWW through the publisher or other provider (recommended criterion but not required)

An asterisk (*) before a title is a recommended first purchase title.
